CNR Speedometers – July 2022

Economic & Financial Indicators That are Forward-Looking Six to Nine Months

- Indicators have become more balanced as risk to the outlook increase.
- Recent moderation driven by higher inflation and commodity prices and more hawkish Fed policy.
- Watching geopolitical events with a heightened degree of concern.

Impact on Economy and Financial Markets

Impact on investment: ■ Positive ■ Neutral ■ Negative

Timeframe: ■ Current ■ Change from Last month

Source: CNR Research as of July 2022.

The information presented does not involve the rendering of personalized investment, financial, legal or tax advice. This presentation is not an offer to buy or sell, or a solicitation of any offer to buy or sell any of the securities mentioned herein.

Certain statements contained herein may constitute projections, forecasts and other forward looking statements, which do not reflect actual results and are based primarily upon a hypothetical set of assumptions applied to certain historical financial information. Certain information has been provided by third-party sources and, although believed to be reliable, it has not been independently verified and its accuracy or completeness cannot be guaranteed.

Any opinions, projections, forecasts, and forward-looking statements presented herein are valid as of the date of this document and are subject to change.

The indicators reflect forecasts of a 6 to 9 month time horizon. The colors of each indicator, as well as the direction of the arrows represent our positive/negative/neutral view for each indicator. Thus, arrows directed towards the (+) sign represents a positive view which in turn makes it green. Arrows directed towards the (-) sign represents a negative view which in turn makes it red. Arrows that land in the middle of the indicator, in line with the (0), represents a neutral view which in turn makes it yellow. All of these indicators combined affect City National Rochdale's overall outlook of the economy.
